# Our story

## In Uzbek legend, Humo is the bird of happiness. Whoever its shadow falls on is blessed with good fortune.

Humo AI puts that bird beside every student preparing for the Digital SAT. Humo is a patient, clever tutor that explains, encourages and celebrates, and helps students from Tashkent and beyond reach the university they dream of.

The logo shows Humo with its wings raised, rising, and crowned with a four-point spark: the mark of intelligence that sets Humo AI apart.

### Personality

**Wise**
Knows the SAT inside out, explains it simply.

**Warm**
Encouraging, never judging. Mistakes are part of learning.

**Ambitious**
Aims high: top scores, top universities.

**Clear**
Short sentences, real steps, no fluff.

### Voice

✓ **Say** "Nice! That's 3 in a row. Ready for a harder one?"

✕ **Not** "Congratulations on successfully completing the assessment item."

02

# The logo

### The Humo

The bird of happiness with raised wings: four feathers on each side, five tail plumes, head turned to the right. Drawn in the Humo gradient, the same pink-to-crimson light as the 3D Humo.

### The AI spark

A four-point star crowning the bird. It stands for intelligence and is the brand's main graphic element.

### The wordmark

"Humo AI" set in Onest Bold, tracking -2.5%. On dark: "Humo" white, "AI" in rose. On light: "Humo" navy, "AI" crimson. The logo is never all red.

03

# Logo variations

**Horizontal (primary)**
Website header, documents, wide spaces.

**Stacked**
Square and tall spaces, posters, merch.

**Mark**
When the name is already nearby, or very small sizes.

**App icon**
Phone home screen, favicon, browser tabs.

**Seal**
Round avatars: Instagram, Telegram, YouTube. A white version exists for light layouts.

**Wordmark**
Only where the bird already appears, e.g. next to the 3D Humo.

04

# Colour versions

**Full colour on dark**
The preferred version. Red Humo, white "Humo", rose "AI".

**Full colour on light**
Navy "Humo", crimson "AI".

**Navy**
On petal, cream or for one-colour print.

**White**
On photos (with a dark overlay) or coloured backgrounds.

**Flat crimson**
Embroidery, stamps and one-colour red print, where gradients can't print.

**Black**
Fax, stamps, newspaper. Only when no colour is possible.

05

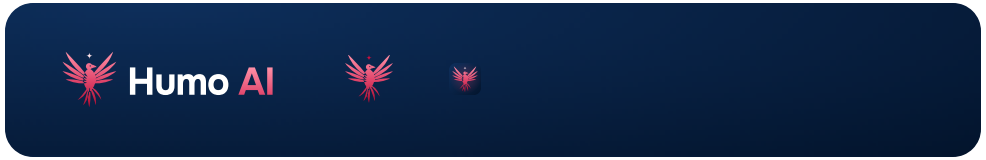

# Clear space & minimum size

**Clear space.** Keep an empty margin of **X** on every side, where X is one quarter of the mark's height (about the height of the bird's head). The logo files already include this space.

## Minimum sizes

| | Screen | Print |
|---|---|---|
| Horizontal logo | 120 px wide | 30 mm wide |
| Stacked logo | 72 px wide | 20 mm wide |
| Mark | 24 px tall | 8 mm tall |
| Seal / avatar | 40 px | 12 mm |
| Favicon | 16 px (use favicon.svg) | – |

Below these sizes the feathers start to merge. Use the favicon version (a slightly larger bird inside the tile) for anything under 32 px.

06

# Logo misuse

✕ Don't stretch or squash

✕ Don't rotate

✕ Don't recolour

✕ Don't add shadows or glows

✕ Don't make the whole logo red

✕ Don't lower the opacity

✕ Don't put white or rose text on white

✕ Don't place on busy backgrounds

07

# Colour palette

**Humo Navy**

| | |
|---|---|
| HEX | #03244A |
| RGB | 3 36 74 |
| CMYK | 96 51 0 71 |
| Pantone | ≈ 2767 C |

Main brand colour. Backgrounds, headlines, "Humo" on light.

**Humo Crimson**

| | |
|---|---|
| HEX | #C8103F |
| RGB | 200 16 63 |
| CMYK | 0 92 69 22 |
| Pantone | ≈ 200 C |

The red of Humo, the same red as the 3D Humo. "AI", key buttons, highlights.

Pantone values are the nearest Coated matches (≈). CMYK values are starting points; ask the printer for a proof. The Humo gradient should be printed as Crimson (200 C) when gradients aren't possible.

08

# Colour in use

## Proportion

Navy carries the brand; red brings Humo to life. Use crimson for Humo, "AI", key numbers and the one action that matters on a screen. Never make a whole layout red: the logo and pages are navy first, red second.

## The Humo gradient

```
linear-gradient(180deg, #FF8FA6 0%, #E0456B 50%, #A8092F 100%)
```

```
linear-gradient(135deg, #0E2F5C 0%, #03142C 100%)
```

## Contrast (WCAG)

| | |
|---|---|
| **Aa** White on Navy<br>15.5:1 · Pass, any text | **Aa** Sheen on Navy<br>6.3:1 · Pass, any text |
| **Aa** Navy on Cream<br>14.5:1 · Pass, any text | **Aa** Crimson on White<br>5.8:1 · Pass, any text |
| **Aa** White on Crimson<br>5.8:1 · Pass, any text | **Aa** Rose on Navy<br>3.9:1 · Large text only |

Small red text goes in Crimson on white. On navy use Sheen or Rose; Crimson itself is too dark for small text on navy.

# Humo the mascot

## Humo is the student's friend: a light red little bird of happiness who explains, cheers and never gives up on you.

### Construction

- **Body** one pear shape, head and body together, light red (och qizil) lit from the top left.
- **Crest** three crimson feathers; the AI spark floats beside them.
- **Eyes** big, with navy irises and two white sparkles. Brows are short crimson strokes.
- **Tail** three curled plumes in crimson, rose and petal: Humo's signature.
- **Medal** a navy collar with the AI spark medal on the chest.
- **Wings** soft, rounded; they do the acting. Cheeks are blush at 40%.

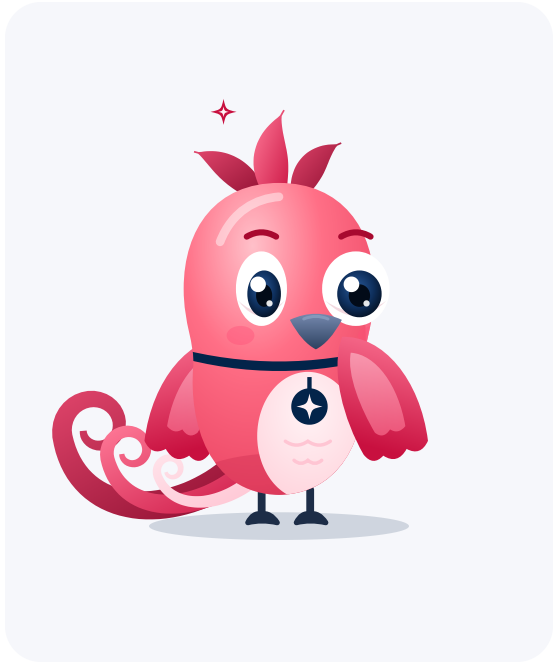

The 3D Humo on the website keeps its own look. The 2D Humo is for social posts, stickers, app icons and in-app illustrations, in the same crimson family.

11

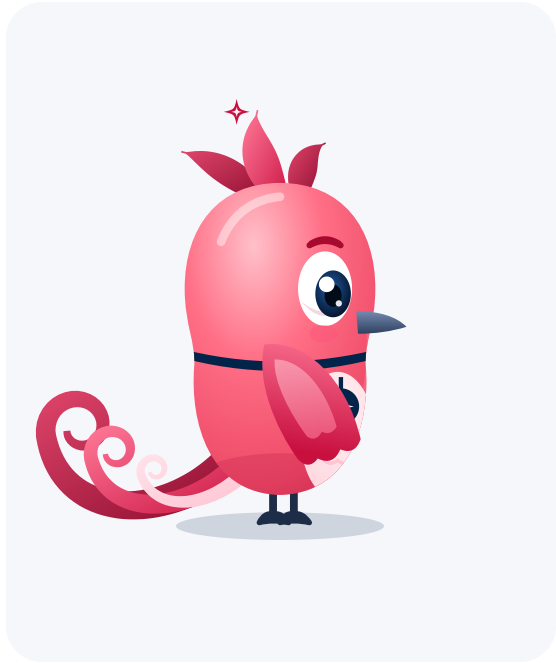

# Mascot turnaround

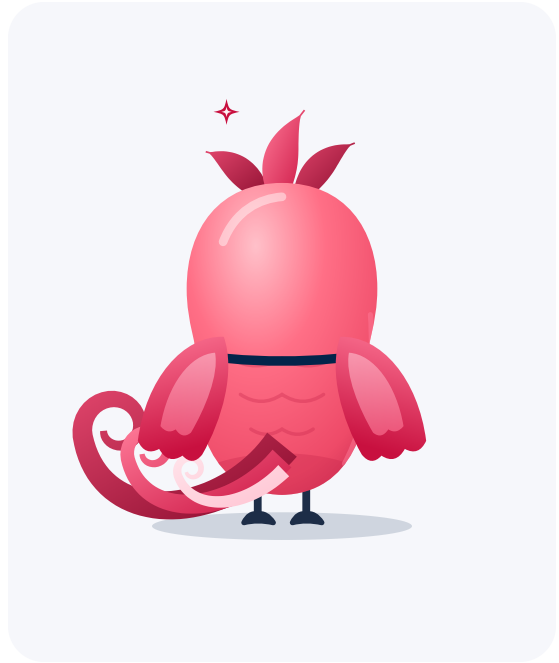

**Front**

**Three-quarter**

**Side**

**Back**

Use these views to keep Humo on-model when drawing new scenes or briefing an animator. Proportions: height = 1.5 × body width; eyes sit on the upper third; the tail always sweeps to Humo's right (viewer's left).

12

# Mascot poses

**Hello**

Welcome screens, greetings, onboarding

**Celebrate**

Correct answers, streaks, score jumps

**Explain**

Lessons, hints, "here is how"

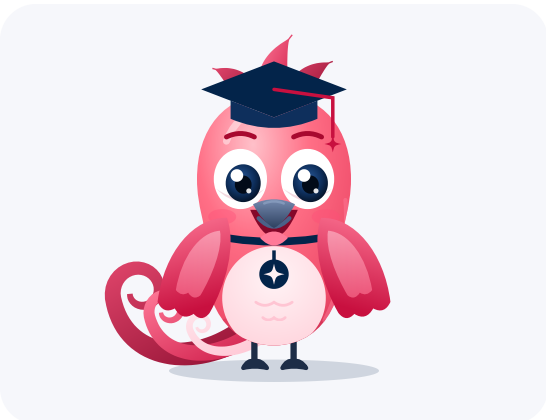

**Reading**

Courses, vocabulary, passages

**Thinking**

14

# Mascot rules

✓ Match the emotion to the moment: cheer after mistakes

✓ Give Humo room: at least one wing-length of space

✕ Don't change Humo's colours

✕ Don't squash or stretch Humo

✕ Don't show Humo sad or angry at a student

✕ Only one Humo per graphic

✕ Don't replace or overlap the logo mark with the mascot

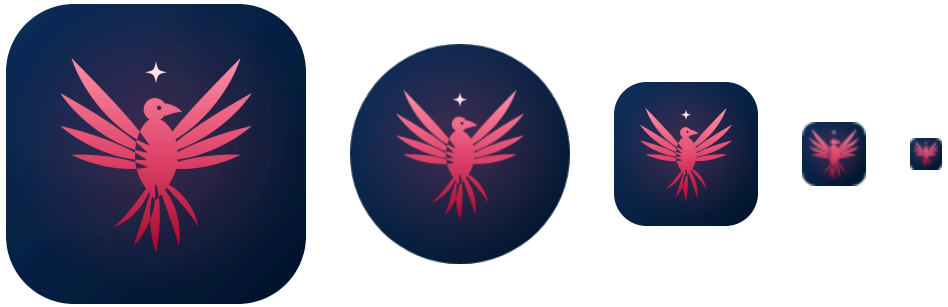

✓ Props are fine if they're about learning

15

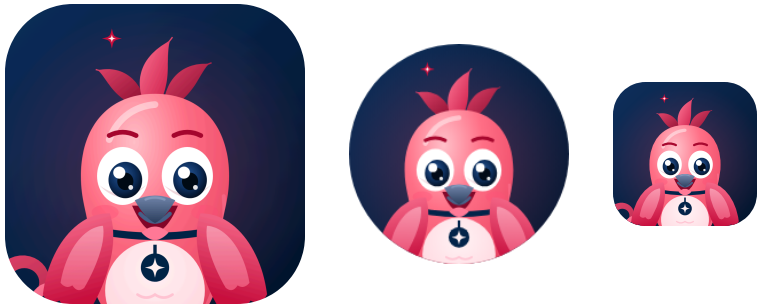

# App icons

## Logo icon

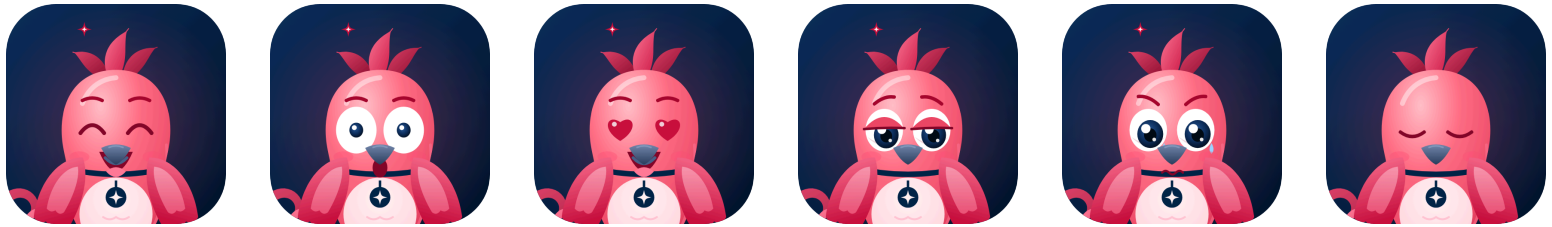

The main icon for the app, the website and the browser tab.

## Mascot icon

For the Telegram bot, chat avatars and friendly places.

## Moods

Every size is ready: iOS (20–1024 px), Android mdpi–xxxhdpi square and round, adaptive foreground/background, Play Store 512, web favicons, Apple touch icon and a maskable PWA icon.

16

# Graphic elements

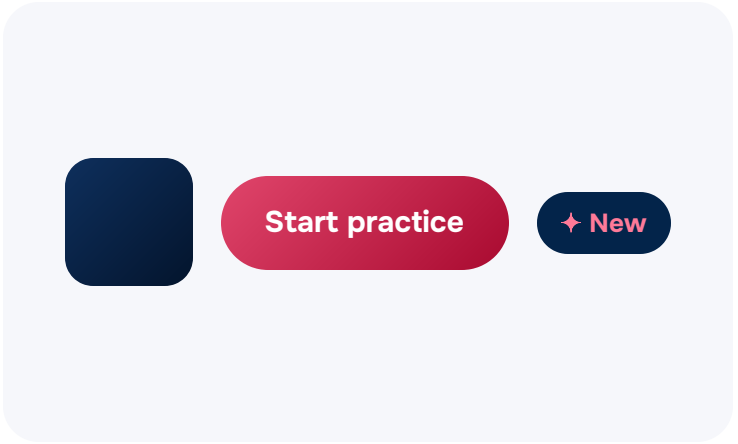

### The AI spark

Use it as a bullet, a "new" marker, a rating star or to frame a key number. Always crimson, rose or white, never rotated.

### Spark field

A quiet grid of sparks at 8% opacity behind dark social graphics, with a soft rose glow behind the hero.

### Shapes

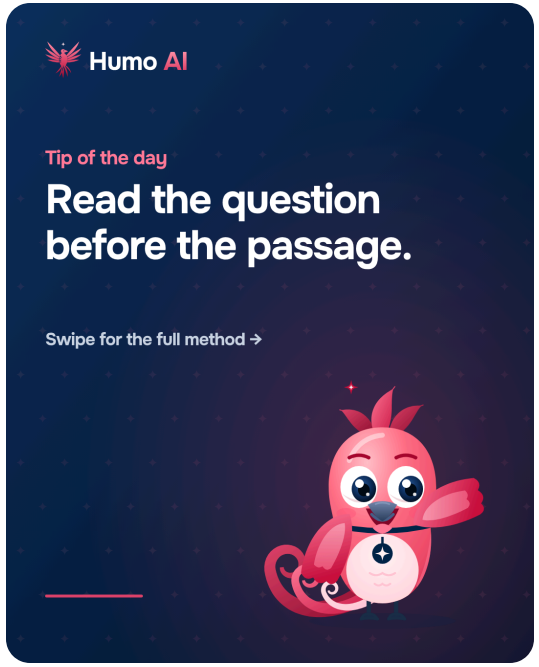

Rounded corners everywhere: tiles 22% of their size, cards 20–28 px, buttons fully rounded. Icons: Lucide line icons, 2 px stroke.

17

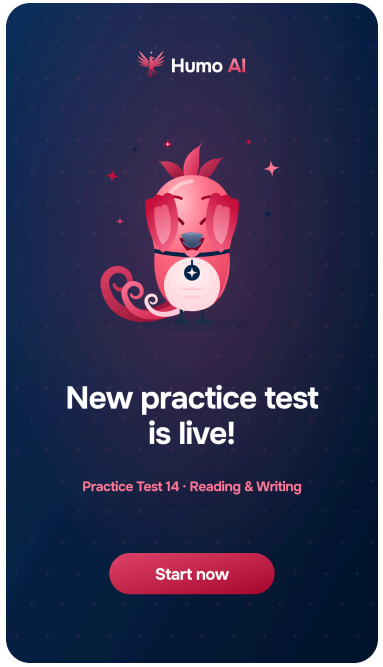

# Instagram

**Profile**
1080×1080, Seal

**Post**
1080×1350 (4:5)

**Story / Reel cover**
1080×1920

## Rules

- Logo top-left on posts, top-centre on stories, at least 64 px from the edge.
- One headline, max 8 words, Onest Bold, white; a rose kicker line above.
- Keep text inside the middle 1080×1420 of stories (the safe zone).
- Humo bottom-right on posts, never covering text.
- Carousels: same background on every slide, page number in rose.
